## 2019 Sponsorship Opportunities: The Cultural Landscape Foundation Landslide 2019: Living in Nature

Every year TCLF creates an annual thematic [Landslide® report](#) about threatened and at-risk cultural landscapes and landscape features. The goal is to draw immediate and lasting attention to these threatened and unique sites by making them visible, revealing their value, and promoting public engagement in the form of advocacy and stewardship. Each online report features photography, narratives histories about the sites and theme being explored, and ways for the public to learn more and get involved. In 2019 the annual *Landslide* report will highlight the impact of climate change on our shared landscape legacy, which is already suffering the effects of increasing fires, rising waters, altered ecologies, and accelerated extinctions.
